THANKS FOR YOUR PATIENCE & FOR CONSERVING ENERGY... especially when the state's electricity supplies are extremely low and rotating blackouts become necessary. We regret that due to recurring supply shortages, we are not always able to provide the reliable service that has been our hallmark for the past 100 years. Please continue to conserve energy whenever and wherever possible.

(E) The Energy Charges reflect the amount included in your rate for recovery of energy procurement and generation costs. Effective September 20, 2001, your ability to enter into new contracts or arrangements to purchase electricity from another supplier was suspended by the California Public Utilities Commission.

(D) These charges are being collected by Southern California Edison as an agent for the Department of Water Resources (DWR) for that portion of energy DWR procured.

Emergency Restoration Procedure Test
Category H Water Agencies and Fire Agencies

Objectives

To test the procedures by which Southern California Edison and its Category H water and fire agency customers communicate:

Requests for emergency exemption or restoration of electrical service when Stage 3 Rotating Outages coincide with localized conditions of fire emergency;

Resulting actions internal to SCE, and

Confirmation to customers and/or fire agencies that SCE actions resolved emergency needs.

The test will also demonstrate:

The accuracy of information as it flows from the originating fire agency to water agency, through internal SCE organizations, and back to the originating agency;

Customers' understanding of the specific information they need to have at hand when requesting Category H emergency restoration or exemption from rotating outages;

The elapsed time between each node of the information loop, as well as from the originating request to final resolution;

The trail of authorization and decision-making, including individuals' names and titles, in case the incident later requires follow up training or quality assurance auditing.

Test Scenario

The California Independent System Operator has declared a Stage 3 Emergency. Rotating outages of approximately one hour in duration have been ordered throughout the SCE service territory. Fires have begun to ignite in several places, and responding fire agencies urgently require that certain hydrants, out of service due to the outages, be repressurized. Fire agencies appeal to the water agencies servicing the fire area for assistance.

Scope and Artificialities

- The test will be conducted among participating organizations entirely by telephone.
- All incidents relating to rotating outage conditions and localized fires will be simulated.
- Participation of SCE customers and fire agencies is voluntary.
- Participants within SCE will have advance notice of the incoming customer communication, which they would not have in an actual emergency.

Invitation to Test Notification and Emergency Procedures for Water and Wastewater Agencies

Southern California Edison recognizes that electricity plays an essential role in your ability to provide water and/or wastewater treatment services to your customers. Accordingly, the California Public Utilities Commission (CPUC) has ruled that a water or wastewater treatment facility (classified as Essential Use, Category H) may request an emergency exemption from an imminent rotating outage—or restoration of service if an interruption has occurred due to a rotating outage—if an emergency arises that requires its service.

The CPUC has ordered Southern California Edison to test our ability to respond to such requests from Category H customers like your agency. The first step in testing our procedures for restoration is to confirm that your requests are received, processed internally, and followed up in an accurate, timely manner. We invite you to participate in testing our communication procedures, beginning the week of August 12. The tests will take approximately 30 minutes each and will be conducted entirely by telephone.

We will conduct two test scenarios, one for water agencies and the other for wastewater treatment facilities:

**Test for Water Agencies**
- The water agency test scenario will suppose that emergency service restoration is required to re-energize hydrant pumping systems needed for fire fighting. This scenario allows us to include a variety of fire agencies in the notification test. As participating firefighters will trigger your emergency request by designating specific hydrants they need to use, please be sure your records are current in terms of correlating hydrants, pumping stations, and the SCE service account number associated with those stations.

**Test for Wastewater Facilities**
- The wastewater treatment facility test scenario will portray a failure of back-up generators supporting a critical pumping station or processing facility. You will need to know the SCE service account number for the affected pumping station or processing facility.

If you would like to participate in these tests, please complete and return the attached Letter of Interest no later than Friday, July 26, 2002.

Upon receipt of your Letter of Interest, we will provide you with more specific information. If you have any input regarding the conduct of the test, please feel free to provide it along with your Letter of Interest.

Thank you for your interest and consideration.

Currently, the Rotating Outage Group number shown on the upper portion of your bill is not subject to rotating outages. However, the outage group number is subject to change at any time without notice due to electric system operating conditions.

IMPORTANT MESSAGE
A recent decision by the Federal Energy Regulatory Commission required SCE to increase the transmission rate component of your bill and to decrease the generation rate component. In most cases, there will be no change to your bill. It is important to note that the decrease in the generation component will result in a decrease in the Procured Energy (PE) credit for all Direct Access customers.

Message

Reminder - A late payment charge of 0.9% will be applied to the total unpaid balance on your account if full payment is not received by the due date on this bill. For designated State agencies, the late payment charge will be applied in accordance with SCE tariffs.

IMPORTANT INFORMATION

Currently, the Rotating Outage Group number shown on the upper portion of your bill is not subject to rotating outages. However, the outage group number is subject to change at any time without notice due to electric system operating conditions.

IMPORTANT MESSAGE

A recent decision by the Federal Energy Regulatory Commission required SCE to increase the transmission rate component of your bill and to decrease the generation rate component. In most cases, there will be no change to your bill. It is important to note that the decrease in the generation component will result in a decrease in the Procured Energy (PE) credit for all Direct Access customers.

BILL MESSAGE

A portion of the Energy Charges reflected on your bill is being applied to the Department of Water Resources (DWR) Bond Charge and remitted to DWR effective 11/15/02. These bonds were issued by DWR to cover the cost of procurement of power for customers during the energy crisis. A separate line item for the DWR Bond Charge will appear on your bills starting 12/22/02. For additional information, please contact us at the number located at the top of this bill.

Re: Adjustment for Incorrect Horsepower Charges for Service Acct # 3151065
Dear SUNDALE MUTUAL WATR:

We recently discovered a billing error on your Service Account # 3151065, located at 49540 85TH ST W PMP, LANCASTER. This account is billed on the PA-1 rate, which combines the energy charge (per kilowatt-hour) and connected horsepower (HP) charge. A review of your account indicates you have been billed incorrectly for 32 months at the HP rating of 30, 25. We have corrected your HP rating to 65, resulting in an additional charge of $2562.5.

Enclosed is a detailed review of this additional charge. Within the next 60 days, we will apply this amount to your account to reflect your corrected HP charge.

Your rebill will be based on a fair representation of the connected HP to the minimum HP rating possible to achieve your kilowatt-hour usage. Whenever possible, we have verified your HP rating through a comparison of historical SCE records, with a field check by an SCE technician, or with information you or one of your representatives provided.

Please contact your SCE representative or call SCE within the next 30 days at (800) 990-7788 if you disagree with your corrected HP rating of 65. Our representatives are available to assist you Monday through Friday between the hours of 7:00 a.m. and 7:00 p.m.

We apologize for this error and any inconvenience it may cause you. You are a valued customer and your business is appreciated.

Sincerely,

SOUTHERN CALIFORNIA EDISON

IMPORTANT MESSAGE
A recent decision by the Federal Energy Regulatory Commission required SCE to increase the transmission rate component of your bill and to decrease the generation rate component. In most cases, there will be no change to your bill. It is important to note that the decrease in the generation component will result in a decrease in the Procured Energy (PE) credit for all Direct Access customers.

Message

Reminder - A late payment charge of 0.5% will be applied to the total unpaid balance on your account if full payment is not received by the due date on this bill. For designated State agencies, the late payment charge will be applied in accordance with SCE tariffs.

IMPORTANT INFORMATION

Currently, the Rotating Outage Group number shown on the upper portion of your bill is not subject to rotating outages. However, the outage group number is subject to change at any time without notice due to electric system operating conditions.

BILL MESSAGE

A portion of the Energy Charges reflected on your bill is being applied to the Department of Water Resources (DWR) Bond Charge and remitted to DWR effective 11/15/02. These bonds were issued by DWR to cover the cost of procurement of power for customers during the energy crisis. A separate line item for the DWR Bond Charge will appear on your bills starting 12/22/02. For additional information, please contact us at the number located at the top of this bill.

   Billing Horsepower: 65.0 HP
   - Of your total charges, Franchise Fees represent: $18.94
   - Average Energy Charge during this period is: 10.48 cents/kWh

2. By rate component:

   Procured Energy(E)(D) = $1,782.32
   DWR Bond Charge (B) = $91.69
   Transmission Charges = $16.92
   Distribution Charges = $372.49
   Nuclear Decommissioning Charges = $11.62
   Public Purpose Program Charges = $61.67
   Other Charges = $9.11

   Current Charges = $2,345.82

(E) The Procured Energy Charges reflect the amount included in your rate for recovery of energy procurement and generation costs. Effective September 20, 2001, your ability to enter into new contracts or arrangements to purchase electricity from another supplier was suspended by the California Public Utilities Commission.

(D) These charges include Procured Energy Charges for that portion of your energy usage provided by the Department of Water Resources (DWR) and are being collected by Southern California Edison as an agent for the DWR. DWR is collecting 9.472 cents per kilowatt-hour (kWh) for each kWh it provides.

(B) A portion of electric energy charges is being applied to Department of Water Resources (DWR) Bond Charges. These bonds were issued by DWR to cover the cost of procurement of power for customers during the energy crisis. The DWR Bond Charge reflects the cost of repaying these bonds.

Work Order No. 6436-1484 / A.I. No. 4-1251  
Our Reference # DSE04112373

Dear Sir or Madam:

Southern California Edison Company has retained Spectrum Land Services to acquire rights of way for installation of Edison’s electric distribution facilities. The Southern California Edison Company has been requested to furnish electric service to 8710 W. Ave. C4 & 8645 W. Ave. C6 - Lancaster.

To enable Edison to provide this service, we would like to obtain an easement across your property. There will be no charge to you for the construction of this line, nor does the granting of this easement obligate you to take service. In the event you should desire service for the future development of your property, it could be furnished from this line.

You will find enclosed an original and one copy of a Grant of Easement. Please execute the original Grant of Easement, have the signatures notarized, and return to me in the envelope provided. NOTE: The notary stamps must be clear and legible to be accepted for recording by the County Recorder's Office. The plat and copy of the easement are for your files.

Upon request, your notary fees will be reimbursed; please submit a complete receipt with your request.

Thank you for your cooperation on this project. If you have any questions, or need additional information, please call me at (714) 568-1800 x 228 or E-mail me at vwalters@spectrumland.com.

Sincerely,

Vicky Walters
