LITTLEROCK CREEK IRRIGATION DISTRICT WELL 8 GROUNDWATER EXTRACTION REPORTS
LITTLE ROCK CREK IR, 111ST
P O BOX 128
LITTLE ROCK, CALIF. 93543

Well No. 8

1. NAME OF PERSON EXTRACTING WATER: Same

2. AMOUNT EXTRACTED DURING CALENDAR YEAR: 181.37 ACRES

   ACRE FEET

   OR CROPS SERVED OR OTHER USE:

   551 ACRE

   Orchard irrigation & domestic use served by all sources.

   ACREAGE NOT ALLOCATED.

3. CHANGES SINCE LAST REPORTED:

   a. Is name and address typed above correct for future mailing of notices?

      YES   NO

      IF NO: Print correct name and/or address

      STREET ADDRESS OR P.O. BOX

      CITY

      STATE

   b. Has there been a change in ownership or interest occurred since last reported?

      YES   NO

      IF YES and different than Item 3a, indicate below:

      NEW OWNER OR PERSON GAINING PART INTEREST

      NAME

      STREET AND NO. OR P.O. BOX

      CITY

      STATE

   c. Has there been a change made in method of estimating extractions?

      YES   NO

   d. Change in Place of Use

      (Give brief description of new method if changed from method used on last report)

   *ABANDONED WELL: If the above numbered well has been abandoned, only those extractions made during the year from the abandoned well should be entered in Item 2. If a new well has been drilled to replace the abandoned well, a First Notice must be filed in order to report the extractions from the new well. Forms for this purpose will be provided upon request.

   NOTE:

   A $5 FILING FEE IS REQUIRED WITH EACH NOTICE SUBMITTED

   A WILFUL MISSTATEMENT IN THIS NOTICE IS A MISDEMEANOR. SECTION 5008 OF WATER CODE

   COMPLETE FORM & RETURN TO:

   DIVISION OF WATER RIGHTS

   107 S. BROADWAY, ROOM 4022

   LOS ANGELES, CA 90012

   I CERTIFY UNDER PENALTY OF PERJURY THAT THE FOREGOING REQUIRED STATEMENTS AND THE FOLLOWING "OPTIONAL" ADDITIONAL STATEMENTS, IF ANY, ARE TRUE AND CORRECT, TO THE BEST OF MY KNOWLEDGE AND BELIEF.

   SIGNATURE

   HAROLD P. STOCKBRIDGE 3/17/75

GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Recorrection Notice is required to establish a record of water use which can assist the court in determining your rights.

The State Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extraction of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice. (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 924-2445.

| TABLE I: AGRICULTURAL WATER USE WORKSHEET (Optional) |

To estimate your use of water, list below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acre (column 1) times irrigation requirement (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

1. OWNERSHIP: Person listed above is:

☑ Owner of land on which well or point of diversion is located, and is extracting/diverting water.

☐ Lessee of land on which well or point of diversion is located, and is extracting/diverting water.

☐ Owner of land, but lessee is extracting/diverting water.

☐ Other: Please explain:

2. AMOUNT OF WATER EXTRACTED/DIVERTED DURING CALENDAR YEAR

Method of Measurement
☑ Water Meter

☐ Power Meter

☐ Nonmetered or Estimated (Tables I and II on reverse side may be used to estimate agricultural pumpage.)

Type of Water Use
☑ Domestic or Municipal

☐ Agricultural

☐ Other:

If amount of water extracted/diverted during calendar year is less than 10 acre-feet for this well/surface diversion or less than 25 acre-feet for all wells, please check box below:

☐ Close this file. (Files may be reopened at any time - no fee required.)

☐ Do not record my water use but keep my name on mailing list. (No fee required.)

☐ Record my water use. (Water use may be recorded even if it is less than minimum filing amounts - fee required.)

3. SUPPLEMENTAL INFORMATION: Please list any changes in your project since last year (new pump, new land irrigation, new method of irrigation, etc.) or any other comments.

None

4. CERTIFICATION AND SIGNATURE: I certify under penalty of perjury that the foregoing statements are true and correct, to the best of my knowledge.

Signature:

WR Form 502 (12/83)
GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Recordation Notice is required to establish a record of water use which can assist the court in determining your rights.

The State Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extraction of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered non-use of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions. (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice. (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 924-2445.

WR Form 502 (12/93)
GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Recordation Notice is required to establish a record of water use which can assist the court in determining your rights.

The State Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extraction of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered non-use of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice. (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (818) 924-2445.

FOR IND}
GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Recordation Notice is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extraction from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumping to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice. (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone the Regional Water Quality Control Board.

TABLE I: AGRICULTURAL WATER USE WORKSHEET (Optional)

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) times applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Recoduction Notice is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pummpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice. (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone 619-227-4500.

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) times applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

Wr Form 502 (4/96)
GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Recodification Notice is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 657-2170.

TABLE I: AGRICULTURAL WATER USE WORKSHEET (Optional)

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) times applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Notice of Groundwater Extraction or Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) If annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 657-2170.

TABLE I: AGRICULTURAL WATER USE WORKSHEET (Optional)

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) times applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernadino, Los Angeles and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Notice of Groundwater Extraction and Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) If annual water use is less than the required amounts, filling is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 341-5300

TABLE I: AGRICULTURAL WATER USE WORKSHEET (Optional)

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) times applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles, and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Notice of Groundwater Extraction and Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) if annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices that are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write to the address on the top of this form, or telephone (916) 341-5300.

TABLE 1: AGRICULTURAL WATER USE WORKSHEET (Optional)

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) to applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) if annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices that are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write to the address on the top of this form, or telephone (916) 341-5300.

**TABLE 1: AGRICULTURAL WATER USE WORKSHEET (Optional)**

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) by applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

**CONVERSION FACTORS**

One acre-foot (af) = 43,560 cubic feet = 325,900 gallons
One miner's inch is approximately 9 gallons per minute.
An acre-foot covers one acre of land, one foot deep.

**TOTAL IRRIGATION USE**
