Annual Recordation
CIENEGA NO. 1
ANNUAL NOTICE OF GROUNDWATER EXTRACTION AND DIVERSION
(GROUNDWATER RECORDATION PROGRAM)

If the owner information below is wrong or missing, please correct.

OWNER(S) OF RECORD: LITTLE ROCK CREEK IRRIGATION DISTRICT

PRIMARY CONTACT OR AGENT FOR MAIL & REPORTING:

LITTLE ROCK CREEK IRRIGATION DISTRICT
35141 NORTH 87TH ST EAST
LITTLE ROCK, CA 93543

Owner's Designation of Well
CIEGEGA WELL NO 1

State Well Number
08N/11W-22B01 S

Parcel Number

DEADLINE: Notices must be received no later than June 30, 2007 in order to be recorded.

REQUIRED FEES: A filing fee of $115.00 is required for each Annual Notice of Groundwater Extraction and Diversion. Check or money order should indicate your recording number(s) and be made payable to: State Water Resources Control Board. Do not send cash.

PLEASE READ THE GENERAL INFORMATION ON THE REVERSE SIDE BEFORE COMPLETING THIS NOTICE

If the above information is inaccurate, please line it out in red and provide current information. Notify this office if ownership or address changes occur during the coming year.

1. TYPE OF DIVERSION: Groundwater extraction or Surface diversion

2. OWNERSHIP: Person listed below is:
   - Owner of land on which well or point of diversion is located, and is extracting/diverting water.
   - Lessee of land on which well or point of diversion is located, and is extracting/diverting water.
   - Other: Please explain:

3. AMOUNT OF GROUNDWATER EXTRACTION DURING CALENDAR YEAR
   (Must be a specific number)
   - acre-feet
   - cubic-feet
   - gallons

4. AMOUNT OF SURFACE WATER DIVERTED DURING CALENDAR YEAR
   Annual quantity
   - acre-feet
   - cubic-feet
   - gallons
   Season of diversion
   Begin
   End
   Maximum rate of diversion

5. METHOD OF MEASUREMENT: Water Meter, Power Meter, Non-metered or Estimated

6. TYPE OF WATER USE: Agricultural, Domestic or Municipal, Other:

7. ACTION REQUESTED (Check one):
   - Reopen file. (Fee required)
   - Close this file. (No fee required)
   - Record my water use. (Fee required)
   - Do not record my water use but keep my name on mailing list. (No fee required)

Transfer this file to:

THIS SPACE FOR OFFICE USE ONLY
GENERAL INFORMATION

The dependence on groundwater in the Counties of Riverside, San Bernardino, Los Angeles, and Ventura has resulted in diminishing water supplies. As water becomes more scarce, determination of your water rights by the courts may become necessary. Your Annual Notice of Groundwater Extraction and Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered nonuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) If you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) if annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices that are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write to the address on the top of this form, or telephone (916) 341-6300.

**TABLE 1: AGRICULTURAL WATER USE WORKSHEET (Optional)**

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) by applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

<table>
<thead>
<tr>
<th>CROP</th>
<th>COLUMN 1</th>

Your Annual Notice of Groundwater Extraction and Diversion is required to establish a record of water use which can assist the court in determining your rights.

The California Water Code requires you to record your annual surface and groundwater use if your total groundwater extractions from all wells exceed 25 acre-feet. Extractions of less than 10 acre-feet from a single well need not be reported. Although there is no penalty for failure to file the annual notice, failure to file is considered misuse of water. Therefore, persons who do not file notices may have difficulty in supporting a claim of water use during a lawsuit to establish ownership of groundwater rights.

Exceptions: (1) if you are currently reporting your pumpage to a watermaster, your water use is already on record, and you are exempt from the requirement of filing a notice, or (2) if Annual water use is less than the required amounts, filing is optional because these minimal amounts would probably not be affected by a water right dispute. All optional notices which are accompanied by appropriate fees will be recorded.

Should you require additional information about the Water Code requirements or assistance in completing this form, please write us or telephone (916) 341-5300.

### TABLE 1: AGRICULTURAL WATER USE WORKSHEET (Optional)

To estimate your use of water, indicate below the crop type and number of acres. Then find the average irrigation requirement for each crop using Table II. Multiply acres (column 1) by applied water depth (column 2) to determine the amount pumped (column 3). Then total all amounts in column 3 to determine total irrigation use.

<table>
<thead>
<tr>
<th>CROP</th>

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption.
For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at http://www.swrcb.ca.gov.

Application ID:

LITTTEROCK CREEK IRRIGATION DISTRICT

35141 NORTH 87TH ST EAST
LITTTEROCK, CA 93543

Owner(S):

LITTTEROCK CREEK IRRIGATION DISTRICT

Assignment or Address Change:

To inform us of corrections to the name(s) and address(es) of current water right holders, please complete Box 1, and return the original of this form to the address on the back side of this form.

If you are no longer the owner of the water right referenced above, you must inform the Division of Water Rights of the change in ownership by completing boxes 1 and 2. If there are joint owners of this water right, you must provide the names and addresses of all joint owners and designate one person to receive all correspondence from the SWRCB regarding the joint application. (Wat. Code, § 1290; Cal. Code Regs., tit. 23, § 691.) For more than one owner, attach additional sheets.

NOTICE OF PUBLIC WORKSHOPS

Regarding Proposed Revisions to the State Water Resources Control Board’s Fee Schedules for Water Right and Water Quality Certification Programs

NORTHERN CALIFORNIA
Monday, October 27, 2003 at 10:00 a.m.
Joe Serna Jr./Cal-EPA Headquarters Building
Central Valley Auditorium – Second Floor
1001 I Street, Sacramento

SOUTHERN CALIFORNIA
Monday, November 3, 2003 at 10:30 a.m.
Ontario Convention Center
2000 Convention Center Way, Room 203
Ontario

SUBJECT OF THE WORKSHOPS

The State Water Resources Control Board (SWRCB) will hold two public workshops to receive comments on recommendations on a proposed water right and water quality certification fee. In Fiscal Year 2003-2004, the Budget Act requires the SWRCB’s water right program to be supported by fee revenues totaling $4.4 million. Senate Bill (SB) 1049 requires the SWRCB to adopt emergency regulations revising and establishing fees to be deposited in the Water Rights Fund.

WHO MAY BE AFFECTED

The proposal will affect applicants for water quality certification and persons who are regulated by or receive services from the SWRCB’s Division of Water Rights (Division), including water right applicants, permittees, licensees, registrants, lessors, persons filing notices of extraction and diversion of water, persons filing a proof of claim, and projects subject to water quality certification. This proposal will also affect persons contracting with federal agencies or Indian tribes who are likely to decline to pay a fee based on a claim of sovereign immunity; in that case, the fee may be allocated among the contractors.

BACKGROUND

Historically, water right fees collected by the SWRCB have been deposited in the General Fund. These fees recovered only a small fraction of the SWRCB’s water right program costs. The Budget Act of 2003 reduced the amount of General Fund support for the Division’s programs by approximately fifty percent, and substituted funding from fees. SB 1049 directs the SWRCB to set a fee schedule that will generate revenues identified in the Budget Act. Accordingly, the SWRCB will collect fees for the 2003-2004 fiscal year, but the fees will support only half of the Division’s program costs this fiscal year. The SWRCB will review and revise the fees each fiscal year as necessary to conform to the revenue levels set forth in the annual Budget Act. The Office of the Legislative Analyst has recommended that fee revenues support the entire water right program.

LC-Ph5-00547
beginning in Fiscal Year 2004-2005. If the Legislature adopts that recommendation, the SWRCB will have to adjust the fee schedule to generate the increased revenues.

The State Water Rights Board in the 1960s, prior to formation of the State Water Resources Control Board, was supported by approximately 55 technical and legal staff. These staffing levels increased slowly, so that by the 1980s, the program was staffed by 64 technical and legal staff. The Legislature increased the authorized staffing for the program during the 1990s until it reached a maximum of 129 staff in 2000. As a result of budget cuts over the past three years, the program has decreased to the current staffing level of 92 positions, which includes 70 technical and legal staff. The proposed fees are for support of the program as currently budgeted, and would not result in any increase from the current staffing level.

Under the proposed emergency regulations, the SWRCB will increase filing fees for applications, petitions, registrations, and other filings and will adopt annual fees for permits, licenses, water leases, and projects subject to water quality certification. Most fees will be deposited in the Water Rights Fund, which can be used to support all activities in the water right program. The SWRCB will collect all filing fees and the State Board of Equalization will bill and collect all annual fees and pursue collection of unpaid fees.

Enclosed is a synopsis of the proposed fees. The full text of the proposed emergency regulations and fee schedule can be viewed at www.waterrights.ca.gov. To receive a mailed or faxed copy of the regulations, please call (916) 341-5128.

PURPOSE OF WORKSHOPS

The purpose of the workshops is to receive comments on the proposed revisions to the water right and water quality certification fee schedules. The SWRCB will take the proposed revisions and the comments under advisement before deciding whether to adopt the proposed draft emergency regulations to revise the fee schedule. The draft emergency regulations will be considered for adoption at a future SWRCB meeting. SWRCB agendas are posted at http://www.swrcb.ca.gov/wksmtgs/index.html. You may also sign up to receive notices of SWRCB workshops and meetings by e-mail at http://swrcb8.swrcb.ca.gov/lyriisswrcb/.

PROCEDURAL MATTERS

These are informal workshops. There will be no sworn testimony or cross-examination of participants. The SWRCB and its staff may, however, ask clarifying questions.

Because of the short time frame, participants are encouraged to provide written comments as soon as possible, but no later than close of business on Monday, November 3, 2003. The SWRCB requests that written comments be sent to:

Fee Revisions  
Division of Water Rights  
State Water Resources Control Board  
P.O. Box 2000  
Sacramento, California 95812-2000

The SWRCB requests that electronic copies of written comments be e-mailed to feechange@waterrights.swrcb.ca.gov with the subject line of “Fee Revisions.”
Participants are encouraged to summarize their written comments in their oral presentations. Oral presentations will be limited to five minutes or less. Participants with similar comments are requested to make joint presentations.

LOCATIONS AND SECURITY

Maps for both locations can be found at http://www.waterrights.swrcb.ca.gov/fees/maps or can be obtained by calling the Division of Water Rights at (916) 341-5128.

Due to enhanced security precautions at the Cal-EPA Headquarters Building, all visitors are required to register with security prior to attending any meeting. Visitors must go to the Visitor and Environmental Services Center, located just inside and to the left of the building's public entrance, to sign in and receive a visitor's badge. Depending on their destination and the building’s security level, visitors may be asked to show valid picture identification. Valid picture identification can take the form of a current driver’s license, military identification card, or state or federal identification cards. Depending on the size and number of meetings scheduled on any given day, the security check-in could take from three to fifteen minutes. Please allow adequate time to sign in before being directed to your meeting.

ACCESSIBILITY

The Cal-EPA Headquarters Building second-floor hearing rooms and Ontario Convention Center second-floor conference room are accessible to persons with disabilities. Individuals who require special accommodations are requested to contact Adrian Perez at (916) 341-5880 at least five working days prior to the workshop date. TTY users may contact the California Relay service at 1-800-735-2929 or voice line at 1-800-735-2922.

IF YOU HAVE ANY QUESTIONS

Questions concerning this notice may be directed to the Division of Water Rights at (916) 341-5128. Questions may also be sent electronically to feechange@waterrights.swrcb.ca.gov with the subject line of “Question.”

Debbie Irvin
Clerk to the Board

Synopsis of Proposed Emergency Regulations Setting Fee Schedules for the State Water Resources Control Board's Water Right and Water Quality Certification Programs

Background information is contained in the Workshop Notice.

Pursuant to Senate Bill 1049, the proposed emergency regulations include the following provisions:

**Annual Fees**

- Annual fees are based on each fiscal year (July 1 through June 30). Amounts contained in the Fee Schedule Summary are for Fiscal Year 2003-2004.
- Water right permit and license holders must pay an annual fee (see schedule) based on the total amount of water that can be diverted in any year under a permit or license. For direct diversion projects, the total annual amount is computed by multiplying the diversion rate by the length of the diversion season. If a permit or license specifies a maximum annual use limitation for that permit or license that is less than the calculated total annual amount, the fee is proposed to be based on the limitation.
- Fees for water right permits, licenses, applications and petitions with generation of power as the sole purpose of use and involving hydropower projects licensed by the Federal Energy Regulatory Commission (FERC) are set at 30 percent of the fee that would otherwise be due.
- A water right applicant must pay an annual fee in certain circumstances where the applicant’s actions have resulted in a delay in processing the application or the project is initiated prior to the SWRCB issuing a permit authorizing the diversion.
- A person filing a petition to amend a permit or license or extend the development schedule specified in a permit must pay an annual fee in certain circumstances where the person’s actions have resulted in a delay in processing the petition or when the person implements the change before the SWRCB approves the requested change.
- An applicant for water quality certification for FERC licensing must pay an annual fee based on the authorized or proposed installed generating capacity of the hydroelectric facility.

**Filing Fees**

- Filing fees are currently required for water right applications, petitions, small domestic and livestock stockpond registrations, proofs of claim filed in a statutory adjudication, and notices of extraction and diversion of water. These fees are proposed to be increased. New fees are proposed to be assessed for petitions for assignment of a State-filed application and requests for release of priority of a State-filed application. (See schedule.)
- A person who filed a water right application on or after July 1, 2003, and before January 1, 2004, must pay a supplemental filing fee in the amount of the difference between the filing fee already paid and the amount due under the emergency regulations.
- An applicant for water quality certification for an activity that does not involve a FERC-licensed project must pay an application fee. Where water quality certification is required for a project to divert water for irrigation, domestic use, or other beneficial use, the fee is based on the costs for that project. For other projects, the SWRCB’s water quality fee schedule, adopted September 30, 2003, applies.
# Fee Schedule Summary

## Annual Fee Categories (Collected by State Board of Equalization)

<table>
<thead>
<tr>
<th>Fee Category</th>
<th>Proposed Fee</th>
</tr>

<td>Groundwater Recertification under Water Code § 4999 et seq.</td>
<td>$150</td>
</tr>
</tbody>
</table>

\(^1\) Total Acre-Foot per Annum will be considered equal to the diversion rate multiplied by the length of the direct diversion season, and the total collection amount for storage, unless otherwise specified. If the application includes both direct diversion and storage, the two amounts will be additive, unless a total annual amount is specified.

\(^2\) Due under specific circumstances such as: project is initiated prior to the SWRCB issuing a permit authorizing the diversion; applicant requests a delay in processing application; applicant is lead agency under California Environmental Quality Act (CEQA) and has not adopted or certified a final environmental document for the project within two years after the water right application is filed; applicant fails to provide requested supplemental information; or Division has determined that a permit may be issued but the applicant has failed to pay filing fees.

\(^3\) Due under specific circumstances such as: petitioner diverts water prior to the SWRCB approving the requested change; petitioner requests a delay in processing petition; petitioner is lead agency under CEQA and has not adopted or certified a final environmental document for the project within two years after the petition; or petitioner fails to provide requested supplemental information.
