of supervisors of Los Angeles County, as they discuss the Antelope Valley. The vote on Proposition W at a meeting of the Realtors in Howard Johnson's last Monday, October 16.

Spinarski, general Manager of Antelope Valley-East Kern Water Agency, pointed out the dire necessity of supplemental water for the valley and a yes vote on Proposition W as the people leave. When water pushed out of the ground so plentiful was the water in days of lesser population here in 1925. Proof of the dwindling water table in 1940 was also depicted by the slides. As farming and more houses were built in the valley the water dwindled to an extent causing the used water that returns to the sub-surface to become polluted.

Spinarski pointed out it will be a case of half of the people move out of the valley or, to have the supplemental water of the Agency System the Distribution System. At this point, Spinarski asked the question of his audience: The Answer

At the present time, Spinarski continued, it will cost $6,000 per day whether or not the Agency System (Distribution System) is built. Our share is $220 million. With the water from the Feather River we are assured of sufficient water to provide for the needs of business and people. When AVEK has the Agency System the farm...

Wallace G. Spinarski, general Manager of Antelope Valley-East Kern Water Agency, pointed out the dire necessity of supplemental water for the valley and a yes vote on Proposition W at a luncheon meeting of Palmdale Board of Realtors in Howard Johnson's last Monday noon, October 16.

Spinarski flashed color slides and answered questions in giving the facts of the need of the valley for supplemental water and facts on the dwindling of the water table of the valley...

In 1925

The pictures showed the water table of the valley in 1925 when water pushed out of the ground so plentiful was the water in days of lesser population here in 1925. Proof of the dwindling water table in 1940 was also depicted by the slides.

As farming and more houses were built in the valley the water dwindled to an extent causing the used water that returns to the sub-surface to become polluted.

Spinarski pointed out it will be a case of half of the people move out of the valley or, to have the supplemental water of the Agency System the Distribution System. At this point, Spinarski asked the question of his audience: The Answer

At the present time, Spinarski continued, it will cost $6,000 per day whether or not the Agency System (Distribution System) is built. Our share is $220 million. With the water from the Feather River we are assured of sufficient water to provide for the needs of business and people. When AVEK has the Agency System the farm...

Volkswagen's 1973 new car line-up features major restyling of the world famous Beetle, a new look for its luxurious "412" series cars and, for the first time, an automatic transmission on bus-like VW station wagons. The new VWs are available at both Endres Motors, 339 W. Ave. I, Lancaster, and Eliopulos Motors, 730 W. Ave. P, Palmdale.

Still unmistakably Beetle-shaped, the 1973 Beetle seems to have other external clue to identifying the '73 Beetles. They are larger and more rounded than in the past. Rear fender sheet metal is also changed.

A completely new dashboard, with improved ventilation outlets and attractive contemporary styling, are among the changes inside the passenger compartment. The front seats have been redesigned for more comfort, better looks and simplified adjustment.

Volkswagen's new 1973...
EXPERIENCE IN LAW—That is what a man has to have to be a District Attorney. Joseph Busch, DA of LA County, at center, told members of AVBOR in the AV Inn last Thursday morning, Oct. 19. From left: Walt Troth, Program Chr. and Pres. elect of AVBOR; Busch; Joe Rodgers, Pres. of AVBOR.
