THIRTY-SEVENTH YEAR — No. 13 FALMAD, CALIFORNIA, THURSDAY, AUGUST 28, 1958

Palm Desert, California

Thanks for the effort to Form Authority for Entire Basin

Study of Plan Now Under Way by Committee

Efforts are being renewed to form an overall water authority for the Antelope Valley and the Kern County water basin.

The directors of the Antelope Valley Water Basin Association have appointed a committee to study the problem of forming an authority to combine the Antelope Valley and Kern County water basins.

The committee is to be returned to the directors after the fall of the Antelope Valley and Kern County water basin.

The authority would be a political body that would be able to "obtain supplementary water sources" to serve water to the area.

Other actions of the water association directors included adoption of a resolution calling for a meeting of the state Department of Water Resources and the state Legislature to consider bills providing for the State Water Project and other projects of the California Water Plan.

Expansion Plans Outlined

In Talk on Hospital Bonds

Rundown on what will be in the Brentwood Valley Hospital will be presented to members of the San Fernando Valley Hospital Association Tuesday at the Palm Desert Woman's Clubhouse.

The program will include discussions on the hospital's expansion plans, including a new wing to be built in the area. The hospital is part of a $59,244,000 bond issue for expanding the Antelope Valley Hospital.

The hospital has been in operation since 1954 and is located on 10 acres in the city of Antelope Valley. It serves a population of 1,200 people in the area.

Three Parcels Left in State Park Purchase

All but three parcels of 4,000 acres constituting the 6,000-acre parcel purchased for the state park will be purchased by the state through the Department of Highways.

The final three parcels, totaling 71 acres, will be purchased by the State Parks and Recreation Department.

The state park will be on the south side of the San Joaquin River, just west of the city of Antelope Valley.

New Share Sale Plan Endorsed

Plans for a special day to sell stock to raise the necessary funds for a state health in the Antelope Valley Hospital were announced by Clifford L. Rawson, executive director of the Antelope Valley Hospital Association, at a dinner meeting Tuesday night.

The sale is expected to raise more than $5,000,000, which is expected to be used for the construction of a new hospital.

Deposit Rule Unchanged at AV Hospital

The board of directors of the Antelope Valley Hospital has adopted a new deposit rule for the hospital.

The new rule requires patients to deposit $2,500 for an emergency room, $1,000 for surgery, $1,000 for radiography, and $1,000 for Miles.

Girl, 18, Found by Search Party

A through-the-night search was conducted for an 18-year-old girl who was reported missing from her home.

She was last seen on her way to school, and was reported missing at 4:30 a.m. at her home.

She was last seen wearing a white shirt and blue jeans.

She was located the next day and is reportedly unharmed.
