Honorable Brian C. Walsh
Presiding Judge
Santa Clara County Superior Court
191 North First Street
San Jose, California 95113

Dear Presiding Judge Walsh:

The Gilroy Unified School District (“District”) has reviewed the Santa Clara County Civil Grand Jury’s Final Report, “Our School Districts Do Not Need Zeros,” and provides the following response as directed by the Penal Code.

A. Grand Jury Finding 1

“CABs shift large, compounding interest costs to future taxpayers and will inevitably compound the burdens school districts face in operating effective schools for their students in the future.”

District’s Response:

The District’s Series A bonds issued in 2009 were comprised of $47.6 million of Current Interest Bonds (CIBs) and $2.4 million of CABs. The series will be repaid in 25 years and has a principal to debt service repayment ratio of 2.26 to 1. This series fully complies with all the provisions in the proposed AB 182 legislation, which would limit bond repayment terms to 25 years and set a maximum repayment ratio per series of 4.0 to 1. The 2010 $8.9 million CABs have been repaid as of April 1, 2013. At that time, the District also refinanced $884,120 of the Series A CABs, leaving only $1.5 million of CABs in the District’s issuance portfolio.

Had CABs not been used, the District would not have been able to fund important construction projects and upgrades which would have impaired the District’s ability to operate effective schools. Therefore, the District disagrees, in part, with the finding because it reaches an overly broad conclusion. Although CABs can indeed shift large, compounding interest costs to future taxpayers, they do not necessarily or inevitably burden the District’s ability to operate effective schools. However, the District agrees that the use of CABs could be better controlled and should be subject to statewide standards.

B. Grand Jury Recommendation 1

“Each school district in Santa Clara County should adopt a Board policy and any necessary administrative regulations indicating its intent to comply with the moratorium called for by the State Treasurer and the State Superintendent of Public Instruction.”
District's Response:
The Grand Jury Report recommends that a moratorium on the issuance of CABs be implemented in light of potential legislative action on this topic. The Report requests that school districts in Santa Clara County implement this moratorium. The Gilroy Unified School District’s Board of Education adopted the attached resolution at the September 5, 2013 Board of Education meeting indicating that it will implement the suggested Santa Clara County moratorium.

At this time, given the temporary nature of the moratorium, the District believes it is more appropriate to address the issue by way of board resolution than board policy. District board policy concerning the issuance of bonded indebtedness will be amended, if and when new laws are enacted to address this issue.

Please feel free to contact my office if you seek additional information or have any questions regarding this response.

Sincerely,
