Hon. Brian C. Walsh
Presiding Judge
Santa Clara County Superior Court
191 North First Street
San Jose, California 95113

Dear Presiding Judge Walsh:

The Sunnyvale School District ("District") has reviewed the Santa Clara County Civil Grand Jury's Final Report, "Our School Districts Do Not Need Zeros," and provides the following response as directed by the Penal Code.

A. Grand Jury Finding 1

"CABs shift large, compounding interest costs to future taxpayers and will inevitably compound the burdens school districts face in operating effective schools for their students in the future."

District’s Response: Disagree.

The District disagrees in part with the finding because it reaches an overly broad conclusion. Although CABs can indeed shift large, compounding interest costs to future taxpayers, they do not necessarily or inevitably burden the District’s ability to operate effective schools. The District issued CABs in 1996 and 2004; in both cases tax rates are anticipated to decline until the bond measures are paid off in 2023 and 2042, respectively. Furthermore, the use of CABs as part of these bond issuances enabled the District to move forward with voter-approved facility projects that were critically needed for the District to provide effective schools for both current and future students. Had CABs not been used, the District would not have been able to fund these important upgrades and arguably would have impaired our ability to operate effective schools.

That said, the District believes that the use of CABs could be better controlled and should be subject to statewide standards to protect against abuse.

B. Grand Jury Recommendation 1

"Each school district in Santa Clara County should adopt a Board policy and any necessary administrative regulations indicating its intent to comply with the moratorium called for by the State Treasurer and the State Superintendent of Public Instruction."

District’s Response: The recommendation has been implemented, as follows:

Although the District currently does not have any bond authorization, given the call for a moratorium on issuance of CABs in light of potential legislative action on this topic and the Report's request that school districts in Santa Clara County implement this moratorium, the District's Board of Education has adopted the attached resolution indicating that it will implement the suggested
moratorium. While the Report suggested that the moratorium be imposed via Board policy, given
the temporary nature of the moratorium, the District believed it was more appropriately
implemented by way of Board resolution. Board policy concerning the issuance of bonded
indebtedness will be amended if necessary in 2014 once new laws have been enacted to address
this issue.

Please feel free to contact me if you seek additional information or have any questions regarding
this response.

Sincerely,
